Content

1. Cursive Success continues the development of cursive begun in Cursive Handwriting. The workbook teaches letter formation and connections, but the focus of the book is on developing ease in writing smaller-sized letters.
2. Special "Review and Mastery" sections are designed to promote fluency so that children can write quickly and automatically.
3. Narrow double lines ensure proper placement while making the students' transition to single-lined notebook paper easy and comfortable.
4. Writing practice includes examples of correct sentence and paragraph structure and other forms of proper writing technique that reinforce classroom instruction in the language arts.

Student Experiences This is an advanced consumable student workbook. By completing the lessons in the workbook, children develop their neatness, speed and fluency in cursive writing.

Assessment An evaluation section helps teachers assess writing performance and make appropriate corrections.

Organization

Resource Materials

1. The Cursive Teacher's Guide describes the curriculum components and explains the developmentally based instructional sequence and teaching strategies. Detailed lesson plans are included to help teachers prepare for classroom instruction. An evaluation

Overall Strength and/or Weaknesses

Disclaimer: Comments on the strengths and/or weaknesses of each book, material or program were written by members of the State Textbook/Instructional Materials Review Team and reflect their opinions. They do not reflect the opinions of the State Textbook Commission nor the Kentucky Department of Education. In addition, the State Textbook/Instructional Materials Review Team completed each evaluation form during summer of 2005. In order to maintain the integrity of the review team's comments, editing was limited to spelling and punctuation.

Recommendations: This is a workbook that teaches cursive handwriting. There are specific instructions for teachers on how to teach each stroke and letter and some creative ideas for increasing student motivation. Students are not asked to rewrite words several times, instead they are asked to do just a few examples but do them correctly. This program requires that a special paper is used instead of regular lined paper. The letters and words are not connected to other content.
